The plan was proposed by Morris Locke, a layman of the Southern Hilmons Conference, and has as-Southern lithiois Conference, and has assumed no more definite shape than in its first proposition except the informal appointment of committees. The idea, as it is now understood, is to secure land about fourteen miles above Alton, where inducements will be offered Methodists transfer stumper cottages and spend all to erect summer cottages and spend all or a portion of the heated term. Sunday-school conventions, temperance, prohibition and all kinds of church and religious conventions will be held there But the cottage system is the most prominent feature of the place, following the idea of the summer communitles aiready in existence at Clear Lake, ia , at Lake Bluff, near Evanston, on Lake Michigan, and Ocean Grove. To some degree it will be a Western Chau-tauqua, a center of Sunday-school and Methodistical learning, and while the projectors are modest in their presentation of the plan, they hope for immense

The exports of merchandise during May were \$49,012,000, and the imports \$45,660,000. This is much better than the trade of May, 1884, which showed a balance against us of \$7, 341,000. If to the balance in our favor (3,352,000) is added the net export of silver, \$1,523,000, the balance in our favor was \$4,875,000; and the balance, after deducting the gold imported in excess of that exported, \$4,046,000. During the last eight months the excess of exports of merchandise over Imports was \$158,626 and of silver bullion \$9, 259,000, while the excess of the im ports of gold during the same period
